Features

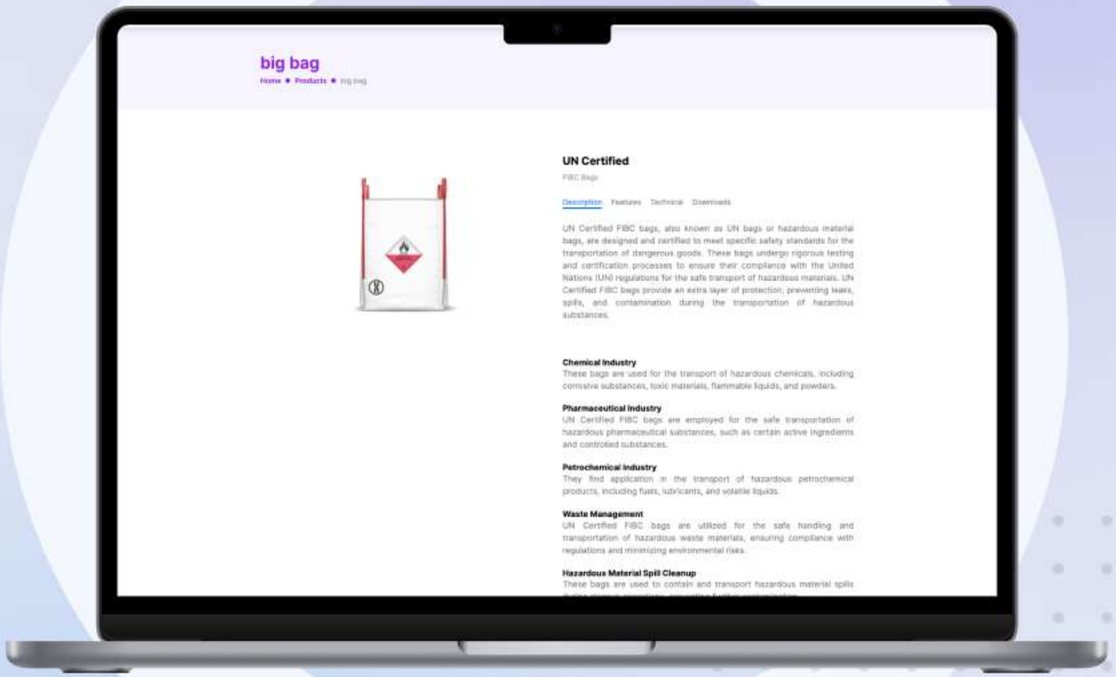
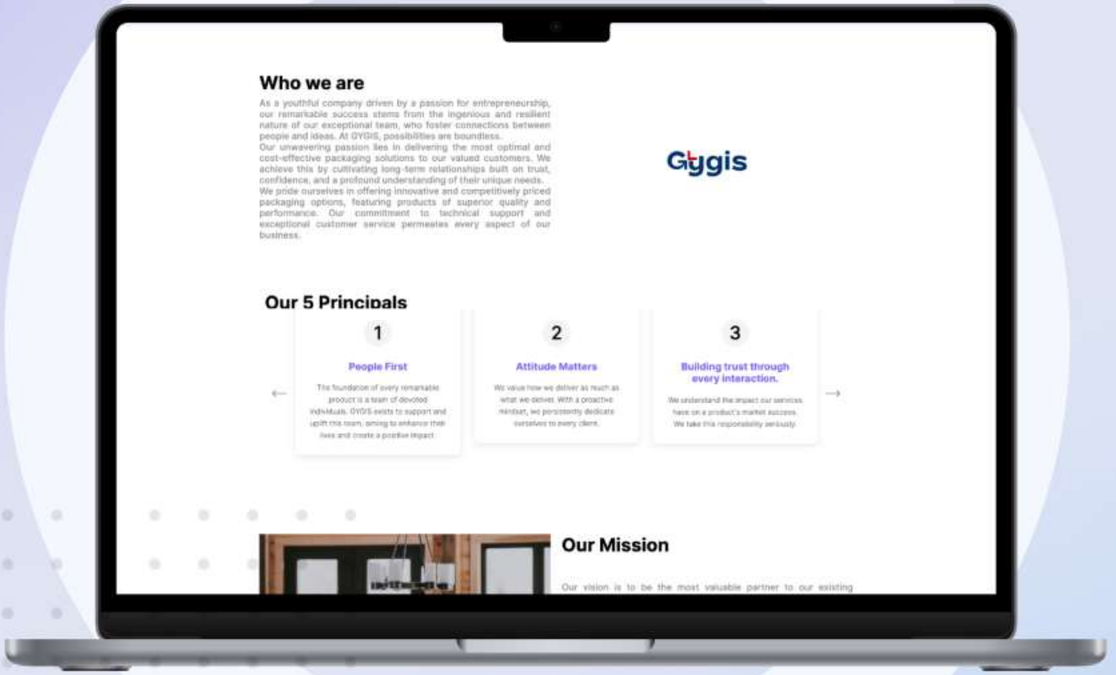
- Comprehensive Product Catalog: Showcase your entire big bag portfolio with detailed descriptions, specifications, and high-quality images, simplifying product selection for international customers.
- Enhanced Customer Relationship Management (CRM): Manage client details efficiently, track order history, and personalize communication through a centralized CRM system.
- Dynamic Invoice Generation: Effortlessly create customized invoices with multilingual support, catering to the specific needs of each client and industry.
- Real-Time Task Management: Assign tasks, track progress, and monitor production workflows in real-time, ensuring efficient team collaboration and on-time delivery.

Challenges

- Data Deluge: Managing high volumes of production data, customer information, and order details can be a cumbersome task, leading to inefficiencies and errors.
- Real-Time Visibility Gap: Lack of real-time data visibility into production workflows can hinder production planning, resource allocation, and timely delivery.
- Invoice Customization Hurdles: Generating customized invoices for different industries and complying with varying regulations can be time-consuming and prone to errors.
- Language Barrier Limitations: Reaching a global audience effectively becomes challenging without multilingual support, restricting customer reach and sales potential.





Solutions

- Scalable Database (e.g., MongoDB): Store and manage large amounts of data efficiently with a robust database solution designed for high performance and scalability.
- Server-Side Events for Real-Time Updates: Eliminate the need for constant refreshing with server-side events that push real-time data updates to the user interface, ensuring everyone has access to the latest information.
- High-Performance Caching (e.g., Redis): Improve application responsiveness and reduce server load by implementing a high-performance caching layer to store frequently accessed data.
- Digital Signature Capture with JS PDF: Allow clients to electronically sign invoices directly within the app using JS PDF, streamlining the approval process and ensuring document security.

Impact

- Enhanced Visibility: Gygis has led to a 40% increase in website visitors, drawing in new customers and expanding brand awareness in the global big bag market.
- Sales Acceleration: Streamlined workflows and improved customer service have resulted in a 20% growth in monthly sales, solidifying Gygis as a key player in the industry.
- Empowered Collaboration: Real-time data visibility and task management features have fostered a 70% increase in inter-team collaboration, leading to improved production efficiency.
- Performance Optimization: The combined impact of data management solutions and real-time updates has resulted in a 30% overall increase in operational performance.
